Comments about [Hallelujah '92](#) - Inner City

Ice_One_Guys

Sorry am I missing something here? No comment on this or the promo release both of which are very easily available for pocket change. Hallelujah Leftfield On A High Vocal is one of the greatest tracks of 1992 and was played in a huge number of venues for well over 6 months (which was very rare given the amount of music being produced at that time). The combination of 2 genius production outfits was never going to disappoint. I have heard this out in and amongst dark hardcore tracks to laid back US style garage sets. Pick it up, should be scored higher than 3.9, there are 1000's out there not 310 and why do 28 people want it when its so easy to get.
