## Comments about **EP2** - FKA Twigs

Whilingudw

Gralmeena

Why is this not 45rpm? :(

Rageseeker

watch out for an outpour of 40 to 60 dollar records for sale. it's because this record is available again for preorder. don't fall for it people. go preorder it.

Brol

ty. i hope she represses her self-released too because this one is exceeding 100 euro :O

Tenius

amazon.com and xl recordings site has it on preorder iirc

Swift Summer

amazon! check it out. or a record store in your area. seems to be a pretty wide release

Coidor

could you tell me where it is available to pre-order please? tried the Young Turks site & links leading from there to no avail. thanks

Diab

I hear another pressing is happening soon.anyone?

Arcanefist

Here's the link to the preorder: <http://www.amazon.com/Ep2-Fka-Twigs/dp/B00E9UAGK6/>

Ann

there's a preorder on amazon for this title slated for May '14. hoping it's a reissue. looks like it.

Weiehan

there are 2 pressings of this (so far) as confirmed to me from Young Turks. The original pressing has no hype sticker on it, while the 2nd pressing has a sticker on the actual sleeve (and possibly the back too). Looks like they had a name dispute and the sticker shows their new name FKA Twigs vs Twigs.

Orevise

My copy is slightly warped. The shop i bought it from said all their copies are the same. Could be a bad factory pressing.

Malalanim

My copy has no warp. It is the first pressing without the hype sticker.

Vispel

Comes with download code
